

Reception Shield - Clamped

Protective Hygiene Screens for Desks and Counters

Protect staff, customers and visitors in the workplace with Reception Shield clear hygiene barriers which can be fitted to working areas to help reduce physical contact and encourage social distancing.

The Reception Shield screen system is specifically designed for reception desks, tills, POS and counters in Commercial, Retail and Hospitality environments where it is important to maintain high-quality building aesthetics and a superior welcoming experience for building visitors.

Protection in the workplace, without damage to your building

Our protective hygiene screens have a unique design which allows them to be fitted and removed without damage to the existing counter/reception desk, making them ideal where fixing and drilling is not possible or appropriate.

- Clear barrier that can be fitted and removed without damage to counters and desks
- Sneeze and cough protection shield for staff and customers
- Optional transaction gaps to enable safe trading whilst encouraging social distancing
- Easy wipe clean acrylic surface
- Ideal for listed, graded or high-end premises where aesthetics are important
- Free-standing and clamp bracket variants are available in a range of finishes.
